Full UK Driving Licence with own car

## Summary

I am an experienced IT professional with over 7 years in IT support, planning, designing and implementing state of the art for information technology solutions that facilitates corporate growth. I am a problem solver with simple and creative design solutions. An innovative professional with proven ability to identify, analyze and solve problems to increase customer satisfaction. I create, configure and manage IT resources, including - but not limited to - servers, applications, cloud technology, websites required by users and clients. I can also plan and build infrastructure for Business Continuation/Disaster Recovery. I am looking for an opportunity to learn and develop my skill whilst working in a fast paced and dynamic environment, where I can also contribute to the success of a rapidly growing team.
